

# Q1 from Question Set #1

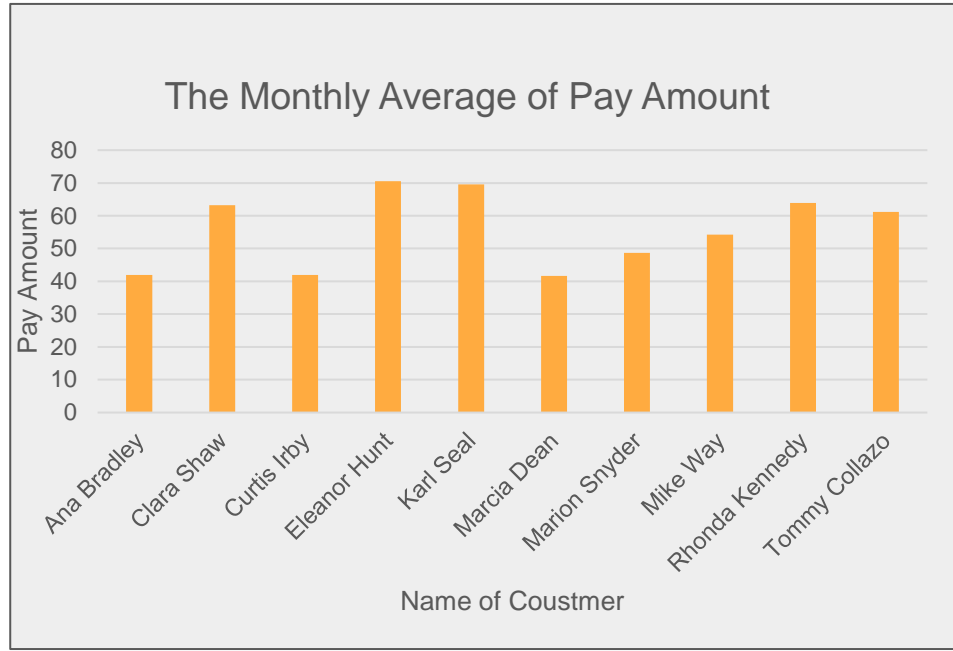

I wanted to understand more about the movies that families are watching. The following categories were considered family movies: Animation, Children, Classics, Comedy, Family and Music. I made a code in SQL for database of this study area. I found that the Animation category had the highest rental count, as you can see in the chart.

# Q1 from Question Set #2

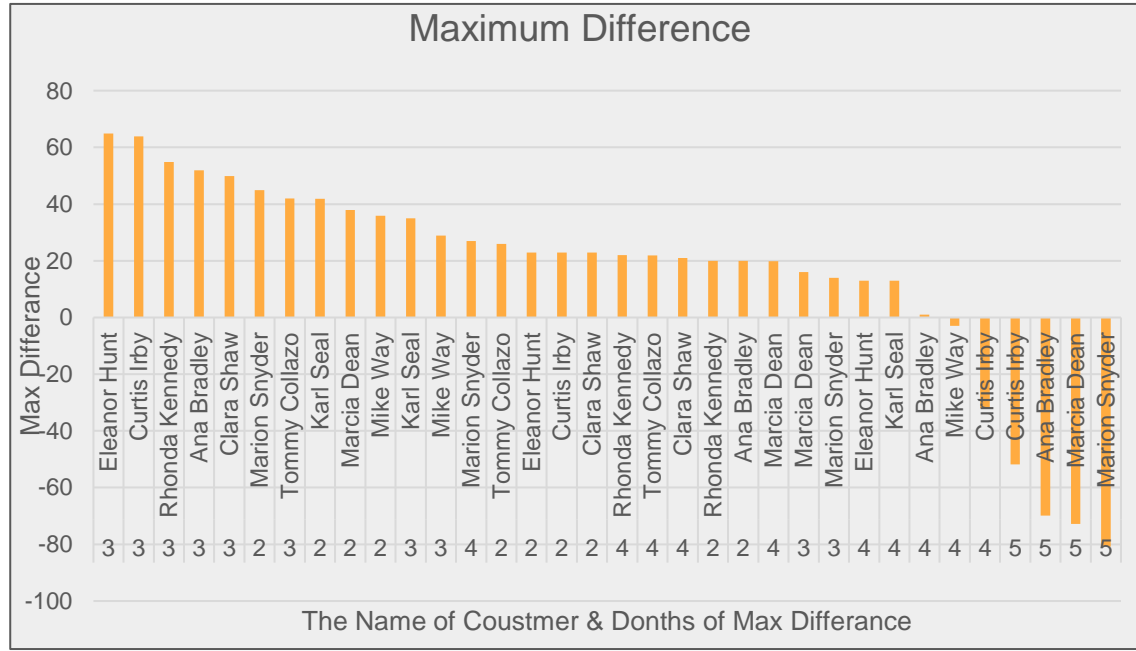

The left chart shows that how the two stores compare in their count of rental orders during every month.

# Q2 from Question Set #2

As you can see in the chart, those our top 10 paying customers during 2007. The chart shows that the average of pay amount for every costumer. We can see that **Eleanor Hunt** was the highest average of pay amount among all costumers.

# Q3 from Question Set #2

As you can see in the chart, The customer ***Eleanor Hunt*** paid the maximum difference of \$64.87 during March 2007 from \$22.95 in February of 2007.
